STATE DOCUMENTS

SOUTH CAROLINA PUBLIC LIBRARY

ANNUAL STATISTICAL SUMMARY

FY 99

2000

Memo To: County and Regional Libraries and Trustees

From: James B. Johnson, Jr., Director

Subject: Public Library Annual Statistical Summary, FY 99

Date: March 2000

The development and implementation of a 3-5 year plan for providing quality library service to the community is essential if libraries are to succeed in the future. South Carolina Public Library Annual Statistical Summary, 1999, is one of several tools that can provide valuable information needed for the development of a successful plan.

It includes information about each library, with sums or averages and medians indicated where applicable. Comparisons with measures from SOUTH CAROLINA PUBLIC LIBRARY STANDARDS, 1998 have been included. Data from the Summary can be useful to public library directors, staff and board members in assessing the quality and effectiveness of library services, determining areas for improvement, and serving as a basis for planning for the future.

Primary information, as submitted by each public library in the FY 99 annual statistical reports, is used in all computations. Beginning with the FY 93 data, FTE computations are based on a 40-hour workweek.

CONTENTS

S.C. Public Library Standards

Pages 2-5

Public Library Staffing, Collection, Collection Expenditure, Hours of Service

Output Measures for Public Libraries

Pages 6-14

Circulation Per Capita, In-Library Material Use Per Capita, Library Visits Per Capita, Program Attendance Per Capita, Reference Transactions Per Capita, Registration Per Capita, Turnover Rate

Green Pages

Pages 15-26

Listing and Ranking of public libraries by Population, Circulation, Public Service Hours, FTE Staff, Total Volumes, Volumes Added, Volumes Withdrawn, Total Operating Income, Local Tax Operating Income, and Local Income as Percentage of Total Operating Income. Ranked data is shaded.

Buff Pages

Pages 27-36

Listing and Ranking of public libraries according to a variety of per capita and percentage statistics including circulation per capita, FTE staff per capita, public services hours per FTE, volumes per capita, personnel expenditure, materials expenditure, electronic expenditure, operating income, and local income. Ranked data is shaded.

Blue Pages

Pages 37-48

Listing and Ranking of public library registration, circulation, turnover rate, in-library use, reference and library visits. Ranked data is shaded.

Yellow Pages

Pages 49-50

Listing and Ranking of public library Juvenile Registration and Circulation, Summer Reading Program. Ranked data is shaded.

Pink Pages

Pages 51-52

Listing of program attendance by age and total program attendance per capita.

NOTE: The Horry County totals at bottom of each page include data for the Chapin Memorial Library and the Horry County Library.

Output Measures for Public Libraries

The challenge facing South Carolina public libraries is to achieve excellence in a rapidly changing environment. The analysis of organized data collected over time is an effective method to use for evaluating current public library services and for planning future services to meet the needs of library users.

There are several publications available to assist libraries with planning, measurement, and evaluation.

PLANNING FOR RESULTS, A PUBLIC LIBRARY TRANSFORMATION PROCESS.

PLANNING AND ROLE SETTING FOR PUBLIC LIBRARIES.

OUTPUT MEASURES FOR PUBLIC LIBRARIES, second edition.

OUTPUT MEASURES FOR PUBLIC LIBRARY SERVICE TO CHILDREN by Virginia A Walter.

Output Measures included in the FY 99 Annual Statistical Summary are:

Library Use Measures

Annual library visits per capita – the average number of library visits during the year per person in the area served

Registration as a percentage of population – the proportion of the people in the area served who are currently registered as library users

Materials Use Measures

Circulation per capita – the annual circulation outside the library of materials of all types per person in the area served

In-library materials use per capita – the annual number of materials of all types used within the library per person in the area served

Turnover rate – the average annual circulation per physical item in the library collection

Reference Services Measures

Reference transactions per capita – the annual number of reference questions asked per person in the area served

Program attendance per capita – the annual number of people attending programs per person in the area served

The following recommended output measures were not reported by South Carolina libraries and are therefore not available in the FY 99 Annual Statistical Summary:

Materials Access Measures

Title fill rate – the proportion of specific titles sought that were found during the user's visit

Subject and author fill rate – the proportion of searches for materials on a subject or by an author that were found during the user's visit

Browser's fill rate – the proportion of users who were browsing, rather than looking for something specific, who found something useful

Document delivery – the time that a user waits for materials not immediately available

Reference Service Measures

Reference completion rate – the staff's estimate of the proportion of reference questions asked that were completed on the day they were asked

As librarians and trustees use these measures, a number of points should be kept in mind:

Libraries, even in communities of similar size, have varying funding patterns and community expectations for service, therefore the data should be analyzed in terms of the library's mission, goals, and objectives.

There are no "right" or "wrong" scores for output measures. One performance measure alone cannot tell a complete story. Output measure scores should be interpreted in context with each other and with the library's overall service program and budget.

Changing a library's output measure scores are usually not done overnight. Changes usually require work over an extended period of time.

All population figures used in computing the output measures were based on the 1990 census.

CIRCULATION PER CAPITA

Circulation Per Capita represents the use of library materials outside the library. It relates the number of items a library circulates to the population of the community served. It can be thought of as representing the average number of items checked out in a year by a member of the community. **Circulation Per Capita** is calculated by dividing the library's total annual circulation by the community population.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Library circulation or acquisitions policies, loan period, fines
- + Special programs – prizes, reading programs, etc.
- + Community awareness of library services
- + Library hours of service
- + Number of library users
- + Age, condition and breadth of the library's collection
- + Physical arrangement and convenience of the library facility

INTERPRETATION AND USE:

Circulation Per Capita is one measure of the community's use of the library. A high score on this measure indicates heavy use of the library's circulation materials. A low score may indicate several things: For example, (1) the library's collection may not meet the community needs or interests; (2) community residents may be unaware of the library's resources; or (3) the library may have an extensive collection of non-circulating materials.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Popular Materials Library
Preschooler's Door to Learning

CIRCULATION PER CAPITA

	Median	SC Average	National Average (1)
FY 94	3.15	4.47	6.40
FY 95	3.03	4.48	6.40
FY 96	3.21	4.62	6.50
FY 97	3.26	4.82	6.60
FY 98	3.34	4.90	
FY 99	3.24	5.13	

(1) Data is from Public Libraries in the U.S. National Center for Education Statistics, U.S. Department of Education.

IN-LIBRARY MATERIAL USE PER CAPITA

In-Library Material Use Per Capita relates the number of materials used in the library to the population of the community served. Use of this measure creates a more complete picture of services to the public than using circulation information alone.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Increase or decrease in the number of reference questions
- + Increase or decrease in seating and study space
- + Number and arrangement of hours of service
- + Library acquisitions and collection development policies
- + Number of library users
- + Physical arrangement of the library facility

INTERPRETATION AND USE:

In-Library Material Use is one measure of the community's use of the library. A high score on this measure may be associated with a high reference use and may indicate that users tend to spend time in the library using non-circulating materials. A low score on this may indicate a library where people stop to pick up materials to take home and do not stay long.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Formal Education Support Center
Independent Learning Center
Reference Library
Research Center

IN-LIBRARY MATERIALS USE PER CAPITA

	Median	SC Average
FY 94	0.71	1.96
FY 95	0.86	2.13
FY 96	0.97	2.34
FY 97	1.03	3.44
FY 98	1.97	1.88
FY 99	0.81	2.41

LIBRARY VISITS PER CAPITA

Library Visits Per Capita relates the number of people visiting the library to the population of the community served. It can be thought of as representing the average number of times a member of the community visits the library. **Library Visits Per Capita** is calculated by dividing the number of library visitors during the year by the population of the service area.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Library hours of service
- + Community awareness of library service
- + Availability of library parking
- + Special library programming
- + Library acquisition and collection development policies
- + Convenience of location of library facilities

INTERPRETATION AND USE:

Library Visits Per Capita is often closely related to circulation, in-library use of material, and program attendance.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Community Activities Center
Community Information Center
Preschooler's Door to Learning

LIBRARY VISITS PER CAPITA

	Median	SC Average	National Average (1)
FY 94	1.90	2.95	4.06
FY 95	2.03	3.06	4.10
FY 96	2.05	2.75	4.00
FY 97	2.02	2.93	4.20
FY 98	2.24	3.30	
FY 99	2.26	3.76	

(1) Data from Public Libraries in the United States. National Center for Education. U.S. Department of Education.

PROGRAM ATTENDANCE PER CAPITA

Program Attendance Per Capita relates the annual number of people attending programs to the population of the community served. It is calculated by dividing the number of people in the audience at all programs held during the entire year by the population of the service area.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Number and type of programs offered
- + Community awareness of library service
- + Involvement of community members in program planning
- + Physical arrangement and convenience of library facilities

INTERPRETATION AND USE:

Program Attendance Per Capita measures use of library services not reflected by other measures. Some libraries rely heavily on programming to attract certain user groups.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Community Activities Center
Community Information Center
Preschooler's Door to Learning

PROGRAM ATTENDANCE PER CAPITA

	Median	SC Average
FY 94	0.13	0.16
FY 95	0.14	0.15
FY 96	0.16	0.17
FY 97	0.14	0.16
FY 98	0.14	0.16
FY 99	0.13	0.15

REFERENCE TRANSACTIONS PER CAPITA

Reference Transactions Per Capita relates the number of information contacts (a staff member uses information sources) to the population of the community served. This measure indicates the average number of times someone seeks library staff assistance in using library information sources.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Community awareness of library services
- + Physical arrangement and convenience of the library facilities
- + Training and scheduling of library staff
- + Age, condition and breadth of the library's collection
- + Library hours of service
- + Library acquisition and collection development policies

INTERPRETATION AND USE:

This measure relates strongly to the goals each library has set for meeting the service needs of its community. A low **Reference Transactions Per Capita** with a high **Circulation Per Capita** may indicate a library used mostly for borrowing materials. A low **Reference Transactions Per Capita** with a low **Circulation Per Capita** may mean a low level of overall library use by the community. A high **Reference Transactions Per Capita** and a low **Library Visits Per Capita** may mean that a large proportion of library users are asking reference questions.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Community Information Center
Reference Library

REFERENCE TRANSACTIONS PER CAPITA

	Median	SC Average	National Average (1)
FY 94	0.33	1.20	1.10
FY 95	0.34	1.13	1.10
FY 96	0.35	1.12	1.10
FY 97	0.37	1.28	1.10
FY 98	0.36	1.27	
FY 99	0.36	1.23	

(1) Data from Public Libraries in the United States. National Center for Education. U.S. Department of Education.

REGISTRATION PER CAPITA

Registration Per Capita relates the number of persons registered as borrowers to the population of the community served. **Registration Per Capita** is calculated by dividing the number of registered borrowers by the total population of the library's legal service area. An accurate count of registered borrowers should be maintained by removing inactive borrowers from the registered count. A registered borrower count is considered invalid if this has not been done in the last three years.

FACTORS THAT INFLUENCE THIS MEASURE:

- + Convenience and location of library facilities
- + Community awareness of library services
- + Library acquisition and collection development policies
- + Library hours of service

INTERPRETATION AND USE:

Registration Per Capita indicates the percentage of the library's potential users who have demonstrated an intent to borrow materials from the library by registering for a card. If the library has not updated its registration figures within the last 3 years this measure is of questionable value.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Popular Materials Library

IN-LIBRARY MATERIALS USE PER CAPITA

	Median	SC Average
FY 94	0.34	0.43
FY 95	0.34	0.44
FY 96	0.37	0.47
FY 97	0.40	0.48
FY 98	0.44	0.52
FY 99	0.45	0.56

TURNOVER RATE

Turnover Rate measures the activity of a library's collection, indicating the number of times each unit of library material would have circulated during the year if circulation had been spread evenly throughout the collection. It is calculated by dividing the library's total annual circulation by total library holdings (book and audio-visual).

FACTORS THAT INFLUENCE THIS MEASURE:

- + Circulation policies – loan period, fines
- + Library acquisitions and collection development policies
- + Special programs – prizes, reading programs, etc.
- + Community awareness of library service
- + Library hours of service
- + Number of library users
- + Age, condition and breadth of the library's collection
- + Physical arrangement and convenience of the library facilities

INTERPRETATION AND USE:

This measure relates strongly to the goals each library has set for meeting the service needs of its community. A library which emphasizes the circulation of popular reading materials will have a higher **Turnover Rate** than a library which emphasizes subject breadth in its collection and has an extensive reference collection.

RELATES TO THE FOLLOWING BASIC SERVICE ROLES:

Popular Materials Library
Preschooler's Door to Learning
